ABOUT ME

I am studying for a BSc in Interactive Technologies at the Universitat Politècnica de València. I am committed, responsible and eager to learn.

During my university studies, I have participated in collaborative projects with a professional focus, developing effective communication and teamwork skills.

I am passionate about technology and creating interactive experiences. I aim to contribute innovative solutions that improve people's lives. My knowledge covers programming, software development, and hardware and electronics integration.

I adapt well to new situations and have experience in customer service, providing professional and efficient support.

EXPERIENCE

Private English tutor · 2020–2022

Personalised lessons for students at different levels, adapting content to their needs and developing communication, patience and planning skills.
